NSQC Clearance On	TBD		

Job Role	Ground Operation Associate (Air Cargo)
Role Description	responsible for accepting / dispatching, preparing necessary documentation, sorting and arranging for storage of cargo as per requirement and regulatory guidelines
NSQF level	4
Minimum Educational Qualifications*	Graduate
Maximum Educational Qualifications*	NA
Training (Suggested but not mandatory)	Not applicable
Minimum Job Entry Age	Above 18 years
Experience	Not applicable
Applicable National Occupational Standards (NOS)	<p>Compulsory:</p> <ol style="list-style-type: none"> LSC/N6101 Receive the cargo for air transportation LSC/N6102 Arrange for cargo to be loaded LSC/N6103 Arrange for dispatch of import cargo LSC/N9603 Maintain health, safety and security procedures in the air cargo operation <p>Optional: Not Applicable</p>
Performance Criteria	As described in the relevant OS units

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Job Role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
OS	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
NOS	NOS are Occupational Standards which apply uniquely in the Indian context.
Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
Qualifications Pack	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Unit Code	Unit Code is a unique identifier for an Occupational Standard, which is denoted by an 'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standard.
Organizational Context	Organizational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical Knowledge is the specific knowledge needed to accomplish specific designated responsibilities.

National Occupational Standard

Overview

This unit is about obtaining receiving the air cargo from the customer and arranging for movement of cargo as per requirement. It also includes preparing appropriate documentation and following procedures as per regulatory requirement.

National Occupational Standard	Unit Code	LSC/N6101
	Unit Title (Task)	Receive the cargo for air transportation
	Description	This unit is about obtaining receiving the air cargo from the customer and arranging for movement of cargo as per requirement. It also includes preparing appropriate documentation and following procedures as per regulatory requirement.
	Scope	<p>This OS unit/task covers the following:</p> <ul style="list-style-type: none"> • Receive and inspect the air cargo • Reject the cargo for loading • Prepare necessary documentation for air cargo transport • Follow all regulatory standards and compliance
	Performance Criteria (PC) w.r.t. the Scope	
	Element	Performance Criteria
	Receive and inspect the air cargo	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC1. receive the details of the cargo from the shipper / customer</p> <p>PC2. cross check the details of cargo, destination and the service terms of the organisation</p> <p>PC3. check for air-worthiness of the cargo</p> <p>PC4. ensure that the cargo is packed with good material and is secure for transport</p> <p>PC5. ensure all the cargo is labelled with instructions / warning signs as per requirement</p>
	Reject the cargo for loading	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC6. reject cargo if it is not properly packed and may cause damage to other goods / aircraft</p> <p>PC7. reject cargo if the weight of the cargo is not properly determined</p> <p>PC8. reject cargo if the air-worthiness of the cargo is not as per standards (example: improper packaging, pilferage, etc)</p> <p>PC9. decide to reject the special cargo / dangerous goods if it is not packed properly or mandatory requirements are not adhered</p> <p>PC10. not accept the cargo if the documentation is not complete / inaccurate</p> <p>PC11. decide to reject the cargo if the airline does not serve the destination or due to not in compliance with organization guidelines</p>
	Prepare necessary documentation for air cargo transport	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC12. prepare Airway Bill and handover a copy to shipper</p> <p>PC13. ensure the Airway Bill contains all adequate information such as cargo details, transportation charges, destination details, etc</p> <p>PC14. document accurately the weight of cargo for load planning purpose</p> <p>PC15. pass the documents to load planning department to determine and prepare load and trim sheet</p>

LSC/N6101

Receive the cargo for air transportation

<p>Follow all regulatory standards and compliance</p>	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC16. make note of and follow all the regulatory compliance as per Directorate General of Civil Aviation (DGCA), Bureau of Civil Aviation Security of India and International Air Transport Association (IATA)</p> <p>PC17. follow all mandatory and regulatory compliance processes and document them as required</p> <p>PC18. carry the identity cards and access cards issued by the airport authority and produce them whenever required for security purpose</p> <p>PC19. adhere all security processes followed in the airport</p>
<p>Knowledge and Understanding (K)</p>	
<p>A. Organizational Context (Knowledge of the company / organization and its processes)</p>	<p>The user/individual on the job needs to know and understand:</p> <p>KA1. organizational procedures</p> <p>KA2. paperwork required before handling cargo</p> <p>KA3. risk and impact of not following defined procedures/work instructions</p> <p>KA4. organisation policy on type of cargo handled</p> <p>KA5. organisation system and processes</p> <p>KA6. organization hierarchy</p> <p>KA7. organization policy of data maintenance, recording and handling</p> <p>KA8. department hierarchy</p> <p>KA9. company's material movement policy</p> <p>KA10. all relevant safety and security procedures</p>
<p>B. Technical Knowledge</p>	<p>The user/individual on the job needs to know and understand:</p> <p>KB1. common problems and solutions for the same</p> <p>KB2. usage of computer for electronic documentation of information</p> <p>KB3. usage of company software to manage and update documentation/reports</p> <p>KB4. documentation process and requirement with air cargo operation</p> <p>KB5. number of copies of different documents to be prepared</p> <p>KB6. reasons to reject the cargo from loading / transportation</p> <p>KB7. determining air-worthiness of air cargo</p> <p>KB8. preparing Airway Bill through internal systems</p> <p>KB9. destinations served by the airline</p> <p>KB10. details of the invoice and airway bill</p> <p>KB11. details of customer to be received and recorded</p> <p>KB12. ensure the Airway Bill contains all adequate information such as cargo details, transportation charges, destination details, etc</p> <p>KB13. interpretation of cargo details based on standard codes and category</p> <p>KB14. procedure to handle special cargo such as live animals, perishable goods, etc</p> <p>KB15. cargo and material handling procedures for different type of cargo</p> <p>KB16. documents related to custom clearance of cargo</p> <p>KB17. precautions to be taken while handling dangerous / hazardous goods</p> <p>KB18. safety and Security requirement for different types of cargo</p> <p>KB19. regulatory procedures and compliance of IATA, DGCA, BCS guidelines</p>

Skills (S)	
A. Core Skills/ Generic Skills	Writing Skills The user/ individual on the job needs to know and understand how to: SA1. prepare invoice and airway bill for the cargo SA2. fill any forms related to movement of air cargo and as per regulatory requirement
	Reading Skills The user/individual on the job needs to know and understand how to: SA3. read the schedule and plan for cargo movement SA4. infer the details of the cargo and the customer shipping the cargo SA5. read instructions and regulatory requirement with reference to air cargo movement
	Oral Communication (Listening and Speaking skills) The user/individual on the job needs to know and understand how to: SA6. interact with customers to receive necessary details and follow organisation etiquette while communicating SA7. communicate clearly with supervisors and peers and clarify for any issues SA8. communicate with buyer, shipper, forwarding agents as per requirement SA9. regularly communicate with all employees in the chain of activities to ensure activities are running smoothly SA10. share best practices with peers and juniors
	Decision Making The user/individual on the job needs to know and understand how to: SB1. decide on acceptance or rejection of air cargo based on organisation and regulatory procedures SB2. decide on type of documentation needs to be made for the transaction
B. Professional Skills	Plan and Organize The user/individual on the job needs to know and understand how to: SB3. estimate time required for each activity SB4. make realistic day plans for each activity SB5. monitor smooth functioning of all activities SB6. prioritize and execute tasks in within the scheduled time limits
	Customer Centricity The user/individual on the job needs to know and understand how to: SB7. ensure that the customer is satisfied with reference to the cargo handling and other requirement SB8. ensure all customer special requirements are met while handling the air cargo
	Problem Solving The user/individual on the job needs to know and understand how to: SB9. identify trends / common causes for errors and suggest possible solutions to the supervisor / management SB10. ability to identify and correct errors
	Analytical Skills

LSC/N6101**Receive the cargo for air transportation**

	The user/individual on the job needs to know and understand how to: SB11. notice common accidents and suggest safety measures to prevent the same
	Critical Thinking Skills
	The user/individual on the job needs to know and understand how to: SB12. ability to concentrate on task at hand and complete it without errors

National Occupational Standard

Overview

This unit is about maintaining and following health, safety and security standards during air cargo handling operations in the work place

National Occupational Standard	Unit Code	LSC/N9603
	Unit Title (Task)	Maintain health, safety and security procedures in the Air Cargo Operation
	Description	This unit is about maintaining and following health, safety and security standards during air cargo handling operations in the work place.
	Scope	<p>This OS unit/task covers the following:</p> <ul style="list-style-type: none"> • Follow healthy work practices and maintain personal health • Take precautions and follow safety processes in the workplace • Ensure security procedures of the airport are followed
	Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria	
Follow healthy work practices and maintain personal health	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC1. make note of all activities which will lead to health issues and take necessary precautions</p> <p>PC2. follow necessary standard operating procedures (SOP) and precautions while handling dangerous and hazardous goods</p> <p>PC3. wear all personal protective equipment (PPE) such as goggles, masks, ear plugs, shoes, etc. as applicable in the cargo movement area</p> <p>PC4. perform basic first aid in case of any accidents</p> <p>PC5. undertake periodical preventive health checkups</p>	
Take precautions and follow safety processes in the workplace	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC6. make note of all safety processes in different location of the airport (cargo loading area, ramp operation area, etc) with reference to area of operation</p> <p>PC7. follow all safety procedures including walking only in the designated pathway, using hard hats, etc</p> <p>PC8. instruct / follow recommended and standard material handling procedure while handling cargo and avoid any damage to the goods</p> <p>PC9. follow standard procedures and precautions while handling dangerous goods</p> <p>PC10. identify safety related signage in the cargo handling area and follow instructions accordingly</p> <p>PC11. instruct the loaders / unloaders to follow standard safety procedures while handling hazardous / fragile cargo</p>	

LSC/N9603

Maintain health, safety and security procedures in the air cargo operation

	<p>PC12. ensure all the people follow safety process and report to supervisor in case of any deviation</p>
<p>Ensure safety of the material handled</p>	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC13. make note of condition of the cargo handled</p> <p>PC14. check for air-worthiness of the cargo and inform supervisor based on observation</p> <p>PC15. ensure all the safety and security related tags, labels and signage are placed in the cargo</p> <p>PC16. ensure all the cargo passes through security and screening check</p>
<p>Ensure security the procedures of airport are followed</p>	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC17. follow all security procedures while entering and exiting the airport (eg: displaying the id card issued by competent authority) as per the procedure</p> <p>PC18. carry / wear the identity card / access pass during all time in the customs area</p> <p>PC19. ensure all cargo handled have passed security checks and report in case of any violation</p> <p>PC20. ensure that air worthiness of the cargo is checked and does not damage the goods or the flight</p> <p>PC21. follow all security procedures with reference to cargo and manpower movement</p>
<p>Knowledge and Understanding (K)</p>	
<p>A. Organizational Context (Knowledge of the company / organization and its processes)</p>	<p>The user/individual on the job needs to know and understand:</p> <p>KA1. organizational procedures</p> <p>KA2. paperwork required to access and move across in different locations in the airport</p> <p>KA3. all relevant safety and security procedures</p> <p>KA4. risk and impact of not following defined procedures/work instructions with reference to health, safety and security operations</p>
<p>B. Technical Knowledge</p>	<p>The user/individual on the job needs to know and understand:</p> <p>KB1. different locations and access restrictions in the airport, customs area, etc</p> <p>KB2. standard material handling procedures while handling cargo</p> <p>KB3. handling procedure for hazardous / fragile cargo</p> <p>KB4. proper documentation procedure</p> <p>KB5. importance of data security</p> <p>KB6. safety and security signage and their functions</p> <p>KB7. security tags, labels and signage in the air cargo</p> <p>KB8. checking the specifications of the cargo to be declared 'air-worthy'</p> <p>KB9. security measures to check the cargo</p> <p>KB10. security procedures for dangerous / hazardous goods</p> <p>KB11. basic first aid to be performed for accidents</p> <p>KB12. different personal protective equipment (PPE), their usage and purpose</p>

LSC/N9603

Maintain health, safety and security procedures in the air cargo operation

	<p>KB13. consequences of not adhering to health, safety and security standards and procedures</p> <p>KB14. checks and documentation related to cargo movement and security</p> <p>KB15. paperwork, access pass for movement of cargo and manpower in the work place</p>
Skills (S)	
A. Core Skills/ Generic Skills	Writing Skills
	<p>The user/ individual on the job needs to know and understand how to:</p> <p>SA1. fill forms related to health, safety and security procedures wherever applicable</p>
	Reading Skills
	<p>The user/individual on the job needs to know and understand how to:</p> <p>SA2. read and understand the various procedures and standards related to health, safety and security while performing ground operations and handling cargo</p> <p>SA3. read and understand various documents related to security and movement of cargo at various location as applicable</p>
	Oral Communication (Listening and Speaking skills)
<p>The user/individual on the job needs to know and understand how to:</p> <p>SA4. communicate clearly with security officer and guards</p> <p>SA5. share best practices with peers and juniors</p>	
B. Professional Skills	Decision Making
	<p>The user/individual on the job needs to know and understand how to:</p> <p>SB1. make a judgment as to what actions to be taken to avoid any damage / accident to personal health / cargo handled</p>
	Plan and Organize
	<p>The user/individual on the job needs to know and understand how to:</p> <p>SB2. concentrate on task at hand and complete it without errors</p> <p>SB3. be a team player and achieve joint goals</p>
	Customer Centricity
	<p>The user/individual on the job needs to know and understand how to:</p> <p>SB4. ensure safe and secure movement of customer goods and satisfy them</p>
	Problem Solving
<p>The user/individual on the job needs to know and understand how to:</p> <p>SB5. identify any threats / symptoms on personal health, safety, security, etc and take appropriate actions</p> <p>SB6. report to supervisor / management in case of any deviation / violation of any standard procedure</p>	
Analytical Skills	

LSC/N9603

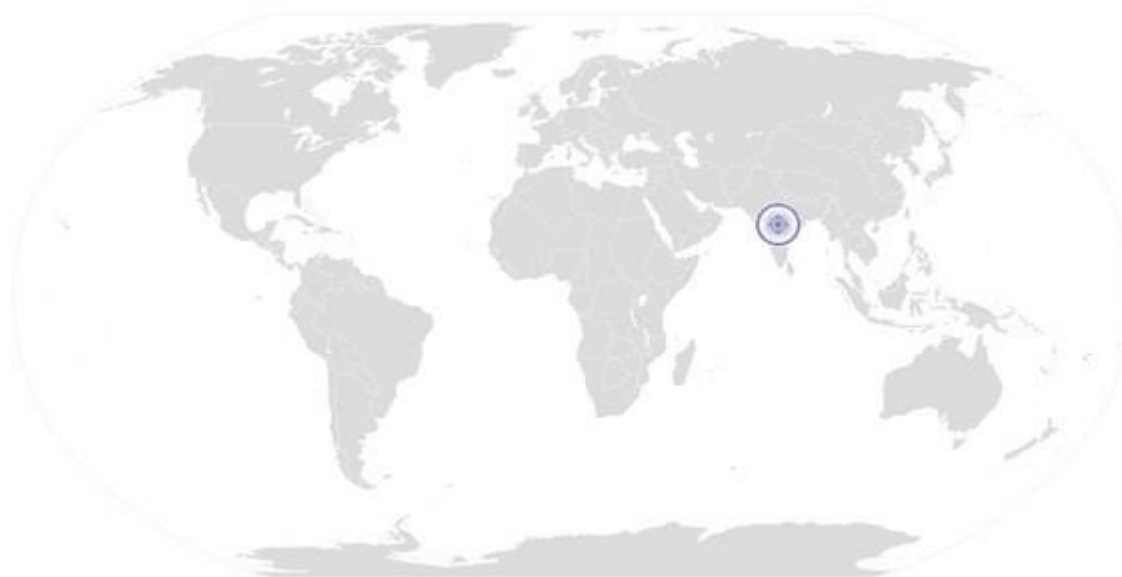

Maintain health, safety and security procedures in the air cargo operation

	The user/individual on the job needs to know and understand how to: SB7. assess any risk during cargo movement
	Critical Thinking Skills
	The user/individual on the job needs to know and understand how to: SB8. concentrate on task at hand and complete it without errors

NOS Version Control

NOS Code	LSC/N9603		
Credits(NSQF)	TBD	Version number	1.0
Industry	Logistics	Drafted on	10/11/2015
Industry Sub-sector	Air Cargo Operation	Last reviewed on	
Occupation	Ground Operation	Next review date

Annexure

Nomenclature for QP and NOS

Qualifications Pack

Occupational Standard

An example of NOS with 'N'

The following acronyms/codes have been used in the nomenclature above:

Sub-sector	Range of Occupation numbers
Warehousing Storage	21,23
Warehouse Packaging	22,23
Land Transportation	11,14
Courier and Mail Services	30
Shipping / Port Operation	46 – 60
Air cargo operation	61 – 75
EXIM logistics	76 – 85
Generic Occupations	96 – 99

Sequence	Description	Example
Three letters	Industry name	LSC
Slash	/	/
Next letter	Whether QP or NOS	N
Next two numbers	Occupation code	01
Next two numbers	OS number	01

CRITERIA FOR ASSESSMENT OF TRAINEES

Job Role: Ground Operation Associate (Air Cargo)

Qualification Pack: LSC/Q6101

Sector Skill Council: LSC

Guidelines for Assessment

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create unique question papers for theory and skill practical part for each candidate at each examination/training center.
4. To pass the Qualification Pack, every trainee should score a minimum of 40% in every NOS overall 50% pass percentage.
5. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.

Assessment outcomes	Assessment Criteria for outcomes	Marks Allocation			
		Total Marks	Out of	Theory	Skills Practical
1. LSC/N6101 (Receive the cargo for air transportation)	PC1. receive the details of the cargo from the shipper / customer	100	5	2	3
	PC2. cross check the details of cargo, destination and the service terms of the organisation		5	2	3
	PC3. check for air-worthiness of the cargo		5	2	3
	PC4. ensure that the cargo is packed with good material and is secure for transport		5	2	3
	PC5. ensure all the cargo is labelled with instructions / warning signs as per requirement		5	2	3
	PC6. reject cargo if it is not properly packed and may cause damage to other goods / aircraft		5	2	3
	PC7. reject cargo if the weight of the cargo is not properly determined		5	2	3
	PC8. reject cargo if the air-worthiness of the cargo is not as per standards (example: improper packaging, pilferage, etc)		5	2	3

		Marks Allocation			
Assessment outcomes	Assessment Criteria for outcomes	Total Marks	Out of	Theory	Skills Practical
	PC9. decide to reject the special cargo / dangerous goods if it is not packed properly or mandatory requirements are not adhered		5	2	3
	PC10. not accept the cargo if the documentation is not complete / inaccurate		5	2	3
	PC11. decide to reject the cargo if the airline does not serve the destination or due to not in compliance with organization guidelines		5	2	3
	PC12. prepare Airway Bill and handover a copy to shipper		5	2	3
	PC13. ensure the Airway Bill contains all adequate information such as cargo details, transportation charges, destination details, etc		5	2	3
	PC14. document accurately the weight of cargo for load planning purpose		5	2	3
	PC15. pass the documents to load planning department to determine and prepare load and trim sheet		10	4	6
	PC16. make note of and follow all the regulatory compliance as per Directorate General of Civil Aviation (DGCA), Bureau of Civil Aviation Security of India and International Air Transport Association (IATA)		5	2	3
	PC17. follow all mandatory and regulatory compliance processes and document them as required		5	2	3
	PC18. carry the identity cards and access cards issued by the airport authority and produce them whenever required for security purpose		5	2	3
	PC19. adhere all security processes followed in the airport		5	2	3
		Total	100	40	60
2. LSC/N6102 (Arrange for cargo to be loaded)	PC1. sort the bulk goods and send them for packaging as per flight deck loading guidelines	100	10	4	6
	PC2. sort the loose and lesser weight cargo as per destination / sector		10	4	6
	PC3. ensure all the cargo has appropriate documents / labels required for transportation		5	2	3

		Marks Allocation			
Assessment outcomes	Assessment Criteria for outcomes	Total Marks	Out of	Theory	Skills Practical
	PC4. weigh the individual cargo units and the sorted cargo (combining all individual units) for further packing		5	2	3
	PC5. receive details of cargo for which custom clearance to be carried out		5	2	3
	PC6. coordinate with custom handling agents for custom clearance of cargo		10	4	6
	PC7. interact with custom broker and assist in sharing required documentation for custom clearance		5	2	3
	PC8. arrange for cargo to be transferred from the customs area to the storage location		5	2	3
	PC9. ensure all the cargo is scanned / screened as per regulatory guideline		10	4	6
	PC10. ensure all custom clearance certificates are obtained for export cargo		5	2	3
	PC11. arrange for temporary storage of cargo till loading of cargo in the flight		10	4	6
	PC12. ensure there is no cargo mix up while in storage		5	2	3
	PC13. arrange for storing the special cargo such as live animals, dangerous goods, etc as per designated section and as per procedure		10	4	6
	PC14. transfer all the required documents to ramp operation department for movement of cargo		5	2	3
		Total	100	40	60
3. LSC/N6103 (Arrange for dispatch of import cargo)	PC1. receive the details of the cargo to be received with all necessary details such as quantity, weight, type of cargo, etc	100	5	2	3
	PC2. arrange for any special material handling equipment (if applicable)		5	2	3
	PC3. make note of any special cargo, dangerous goods and their requirements		5	2	3
	PC4. verify the cargo as per load sheet and ensure all goods are received		10	4	6
	PC5. interact with supervisor in case of missing cargo		5	2	3

		Marks Allocation			
Assessment outcomes	Assessment Criteria for outcomes	Total Marks	Out of	Theory	Skills Practical
	PC6. ensure that the cargo does not suffer damage during transit and inform in case of any damage found		5	2	3
	PC7. coordinate with custom handling agents for custom clearance of import cargo (if applicable)		5	2	3
	PC8. interact with custom broker and assist in sharing required documentation for custom clearance of import cargo		10	4	6
	PC9. arrange for cargo to be transferred from the customs area to the storage location for dispatch		5	2	3
	PC10. sort the goods as per destination and customer details		10	4	6
	PC11. ensure all the cargo is scanned / screened as per regulatory guideline		5	2	3
	PC12. ensure all custom clearance certificates are obtained for import cargo		10	4	6
	PC13. arrange for temporary storage of cargo till dispatch of cargo to the customer		5	2	3
	PC14. arrange for loaders to move the cargo out of the storage area		5	2	3
	PC15. prepare cargo out note and receive receipt confirmation from the customer		5	2	3
	PC16. use the organisation system and software to prepare documentation		5	2	3
		Total	100	40	60
4. LSC/N9603 (Maintain health, safety and security procedures in the Air Cargo Operation)	PC1. make note of all activities which will lead to health issues and take necessary precautions	100	5	2	3
	PC2. follow necessary standard operating procedures (SOP) and precautions while handling dangerous and hazardous goods		5	2	3
	PC3. wear all personal protective equipment (PPE) such as goggles, masks, ear plugs, shoes, etc. as applicable in the cargo movement area		3	1	2
	PC4. perform basic first aid in case of any accidents		5	2	3
	PC5. undertake periodical preventive health checkups		2	1	1

		Marks Allocation			
Assessment outcomes	Assessment Criteria for outcomes	Total Marks	Out of	Theory	Skills Practical
	PC6. make note of all safety processes in different location of the airport (cargo loading area, ramp operation area, etc) with reference to area of operation	5	5	2	3
	PC7. follow all safety procedures including walking only in the designated pathway, using hard hats, etc	5	5	2	3
	PC8. instruct / follow recommended and standard material handling procedure while handling cargo and avoid any damage to the goods	5	5	2	3
	PC9. follow standard procedures and precautions while handling dangerous goods	5	5	2	3
	PC10. identify safety related signage in the cargo handling area and follow instructions accordingly	5	5	2	3
	PC11. instruct the loaders / unloaders to follow standard safety procedures while handling hazardous / fragile cargo	5	5	2	3
	PC12. ensure all the people follow safety process and report to supervisor in case of any deviation	5	5	2	3
	PC13. make note of condition of the cargo handled	5	5	2	3
	PC14. check for air-worthiness of the cargo and inform supervisor based on observation	5	5	2	3
	PC15. ensure all the safety and security related tags, labels and signage are placed in the cargo	5	5	2	3
	PC16. ensure all the cargo passes through security and screening check	5	5	2	3
	PC17. follow all security procedures while entering and exiting the airport (eg: displaying the id card issued by competent authority) as per the procedure	5	5	2	3
	PC18. carry / wear the identity card / access pass during all time in the customs area	5	5	2	3
	PC19. ensure all cargo handled have passed security checks and report in case of any violation	5	5	2	3
	PC20. ensure that air worthiness of the cargo is checked and does not damage the goods or the flight	5	5	2	3
	PC21. follow all security procedures with reference to cargo and manpower movement	5	5	2	3
