

S. No.	NOS Details	Question	Option A	Option B	Option C	Option D	Answer	Marks
1	LSC/N1301.Prepare vehicle and cargo	What should cargo vehicle driver inspect before loading goods safely?	Check brakes properly	Wash vehicle exterior	Count warehouse boxes	Arrange office files	A	6
2		Why should cargo weight be checked before starting transportation?	Extend loading hours	Increase fuel speed	Prevent overload risks	Change route plans	C	6
3		Which action ensures cargo remains secure during vehicle preparation?	Secure cargo properly	Adjust mirror angles	Clean dashboard area	Check driver uniform	A	9
4		What should driver verify before transporting non-hazardous cargo materials?	Inspect seat covers	Review parking slot	Arrange travel snacks	Check cargo condition	D	9
5	LSC/N1302.Drive safely and responsibly	Which action ensures driving safely and responsibly on busy highway routes always?	Speed early reach	Follow traffic rules	No mirror check	Ignore road signs	B	6
6		How should cargo vehicle driver maintain safety while driving in fog conditions?	High beam use	Frequent overtaking risk	Reduced fog speed	Stop road middle	C	6
7		What practice helps cargo drivers ensure responsible driving on long routes consistently?	Regular rest breaks	Continuous long driving	Mobile phone use	Ignore warning signals	A	9
8		Which habit improves safe driving and reduces accident risks significantly on roads?	Sudden lane change	Maintain speed limits	Overload vehicle capacity	Aggressive driving style	B	9
9	LSC/N1303.Guide and control the vehicle	How does cargo vehicle driver properly guide and control vehicle on highways?	Smooth steering control	Use proper indicators	Apply sudden braking	Maintain lane discipline	D	6

10		What action helps driver maintain proper control while turning heavy cargo vehicle?	Slow steady turning	Fast sharp turning	Constant horn usage	High speed turn	A	6
11		Which practice ensures safe guiding and control of vehicle in traffic congestion?	Frequent lane changes	Maintain safe distance	Sudden acceleration moves	Continuous horn usage	B	9
12		How should cargo driver control vehicle while descending steep gradient roads safely?	Engine braking use	Neutral gear driving	High speed descent	Sudden brake usage	A	9
13	LSC/N1304.Health, safety and security procedures for drivers	Which health safety and security procedures must cargo driver follow during transport operations?	Wear safety gear	Follow safety rules	Drive fast route	Skip vehicle check	B	6
14		What procedure ensures driver safety and vehicle security during night cargo transport?	Night rest breaks	Sudden lane change	High speed driving	Proper vehicle lighting	D	6
15		How should cargo drivers maintain health safety compliance before starting journey daily?	Check vehicle condition	Skip safety checks	Drive without plan	Rush departure time	A	9
16		Which practice supports emergency preparedness and security procedures for cargo vehicle drivers?	Late reporting issues	Ignore safety training	Emergency response plan	Unsafe parking habits	C	9
17	LSC/N9908.Maintain and monitor integrity and ethics in operations	How does cargo driver maintain integrity and ethics during transport operations daily?	False mileage reporting	Honest record keeping	Fake delivery entries	Illegal payment acceptance	B	6

18		Which action reflects ethical behavior in cargo vehicle operations and logistics work?	Safe goods delivery	Cargo theft involvement	Invoice manipulation fraud	Unauthorized route change	A	6
19		What practice ensures integrity while handling cargo documents and delivery records?	Incorrect cargo listing	Forged signatures usage	Delayed reporting records	Accurate documentation	D	9
20		How can cargo driver demonstrate ethical conduct during customer cargo interactions?	Transparent communication	Misleading customer updates	Hidden delivery issues	Extra illegal charges	A	9
21	DGT/VSQ/N0101.Employability Skills (30 Hours)	Which employability skills help cargo vehicle driver improve workplace communication and efficiency?	Late document filing	Fast risky driving	Cargo theft involvement	Communication workplace efficiency	D	5
22		Why are communication skills important for cargo vehicle driver in logistics operations?	Clear communication skills	Wrong route selection	Vehicle overloading practice	Ignoring delivery updates	A	5
23		Which employability skill helps cargo driver manage time and delivery schedules effectively?	Unsafe driving behavior	Fuel theft activity	Time delivery management	Poor vehicle maintenance	C	5
24		How does teamwork skill benefit cargo vehicle driver during transport operations daily?	Speed violation habit	Better coordination teamwork	Wrong document filing	Excess cargo loading	B	5
25		LSC/N1307.Multi Axle Vehicle	What is main advantage of driving multi axle vehicle in cargo transport operations?	High load capacity	Low fuel usage	Small turning radius	Quick acceleration speed	A

26		Which practice ensures safe handling of multi axle vehicle during highway driving?	Sharp corner turning	Sudden lane changes	High speed driving	Balanced load distribution	D	6
27		Why is multi axle vehicle preferred for heavy cargo transportation over long distances?	Increased load stability	Reduced driver skill	Minimal braking need	No maintenance required	A	9
28		How should driver control multi axle vehicle during heavy load braking situations?	Neutral gear driving	Sudden brake application	Gradual controlled braking	Ignoring road slope	C	9
29	LSC/N1306.Over-Dimensional Vehicle	What is main requirement for driving over-dimensional vehicle in cargo transport operations?	Route permission approval	Speed racing behavior	Ignoring escort vehicles	Overloading cargo limits	A	6
30		How should driver ensure safety while operating over-dimensional vehicle on highways?	Sudden lane shifting	Drive without planning	High speed movement	Follow escort guidance	D	6
31		Why are special permits required for over-dimensional vehicle cargo transportation operations?	Legal compliance rules	Faster delivery time	Reduce fuel usage	Avoid toll payments	A	9
32		What practice ensures safe turning of over-dimensional vehicle on narrow roads?	Sharp corner turning	Wide turning radius	High speed entry	Ignoring traffic signals	B	9
33	LSC/N1305.Medium Commercial Vehicle	What defines medium commercial vehicle used in cargo transport operations regularly?	Light cargo van	Two wheeler vehicle	Heavy truck trailer	Medium load capacity	D	6

34	Which feature is important for driving medium commercial vehicle safely on highways?	Balanced load handling	High speed racing	Ignoring traffic rules	Sudden lane cutting	A	6
35	Why is medium commercial vehicle commonly used for city cargo deliveries?	No maintenance required	Unlimited cargo weight	Moderate payload capacity	No license needed	C	9
36	How should driver handle medium commercial vehicle during congested traffic conditions?	Maintain safe distance	Continuous horn usage	Rapid lane changes	Sudden acceleration moves	A	9
