

Job role Name:		Green Hydrogen Tank Farm Manager							
Job role Code:		LSC/Q3904 Version: 1.0 NSQF Level: 6							
Question	NOS code	NOS Name	Question	Option A	Option B	Option C	Option D	Correct Answer	Marks
1	LSC/N3919	Assist in GH2 tank farm planning	What is the main purpose of GH2 tank farm planning?	A. To ensure safe and efficient storage of GH2	B. To increase fuel wastage	C. To avoid monitoring storage levels	D. To reduce safety measures	A	5
2	LSC/N3919	Assist in GH2 tank farm planning	Why is it important to monitor tank capacity during planning?	A. To change tank colors	B. To prevent overfilling and ensure proper storage management	C. To increase maintenance costs	D. To reduce storage space	B	10
3	LSC/N3919	Assist in GH2 tank farm planning	Which factor should be considered while assisting in GH2 tank farm planning?	A. Safety requirements and storage demand	B. Employee clothing preferences	C. Office furniture arrangement	D. Vehicle paint color	A	15

4	LSC/N3920	Support in commissioning of GH2 tank farm	What is the purpose of commissioning a GH2 tank farm?	A. To ensure the facility is ready for safe and efficient operation	B. To increase operational risks	C. To avoid equipment testing	D. To reduce safety checks	A	5
5	LSC/N3920	Support in commissioning of GH2 tank farm	What should be checked during the commissioning of a GH2 tank farm?	A. Equipment performance and safety systems	B. Employee clothing preferences	C. Office furniture arrangement	D. Vehicle color and design	A	10
6	LSC/N3920	Support in commissioning of GH2 tank farm	Why is documentation important during the commissioning process?	A. To maintain records of tests, inspections, and approvals	B. To increase paperwork unnecessarily	C. To delay operations	D. To avoid compliance requirements	A	15
7	LSC/N3921	Ensure compliance for the storage and handling of green hydrogen	Why is compliance important when storing and handling green hydrogen?	A. To ensure safety and follow regulations	B. To increase operational risks	C. To avoid documentation	D. To reduce monitoring activities	A	5

8	LSC/N3921	Ensure compliance for the storage and handling of green hydrogen	Which of the following should be followed while handling green hydrogen?	A. Safety procedures and regulatory guidelines	B. Personal preferences only	C. Verbal instructions without documentation	D. Outdated practices that ignore safety rules	A	10
9	LSC/N3921	Ensure compliance for the storage and handling of green hydrogen	What should an employee do if they notice a compliance violation?	A. Ignore it and continue working	B. Report it through the proper channels	C. Hide the information from supervisors	D. Wait for someone else to take action	B	15
10	LSC/N3922	Analyze trends, prepare forecasts and schedules for GH2 movement	Why is trend analysis important in GH2 movement planning?	A. To increase shipment delays	B. To understand patterns and improve planning	C. To avoid record keeping	D. To reduce communication	B	5
11	LSC/N3922	Analyze trends, prepare forecasts and schedules for GH2 movement	What is the main purpose of forecasting in logistics operations?	A. To predict future movement and resource requirements	B. To change shipment labels	C. To increase package weight	D. To avoid scheduling activities	A	10

12	LSC/N3922	Analyze trends, prepare forecasts and schedules for GH2 movement	Why are schedules prepared for GH2 movement?	A. To ensure smooth and timely movement of goods	B. To increase transportation costs	C. To delay operations	D. To reduce coordination among teams	A	15
13	LSC/N3923	Conduct periodic operational and tank farm inspections	Why are periodic inspections conducted in a GH2 tank farm?	A. To ensure safe and efficient operations	B. To increase operational delays	C. To change equipment colors	D. To reduce documentation	A	5
14	LSC/N3923	Conduct periodic operational and tank farm inspections	What should be checked during a tank farm inspection?	A. Equipment condition and safety compliance	B. Employee hobbies	C. Office wall decorations	D. Vehicle brand names	A	10
15	LSC/N3923	Conduct periodic operational and tank farm inspections	What should be done if a safety issue is identified during an inspection?	A. Ignore the issue	B. Report and address the issue according to procedures	C. Hide the issue from supervisors	D. Continue operations without action	B	15

16	LSC/N3924	Follow Safety and Security Guidelines for GH2 Tank Farms	Why is it important to follow safety guidelines in a GH2 tank farm?	A. To ensure the safety of people and equipment	B. To increase operational risks	C. To avoid inspections	D. To reduce productivity	A	5
17	LSC/N3924	Follow Safety and Security Guidelines for GH2 Tank Farms	What should employees wear while working in a GH2 tank farm?	A. Casual clothing only	B. Personal Protective Equipment (PPE) as required	C. Formal office wear	D. Any clothing of their choice	B	10
18	LSC/N3924	Follow Safety and Security Guidelines for GH2 Tank Farms	What should be done if an unauthorized person enters a restricted tank farm area?	A. Ignore the person	B. Report the incident according to security procedures	C. Allow the person to continue	D. Share confidential information with them	B	15

19	LSC/N3925	Respond to Emergencies, Disasters and Pollution Control at GH2 Tank Farms	What should be the first action during an emergency at a GH2 tank farm?	A. Panic and run randomly	B. Follow the emergency response procedure and alert concerned personnel	C. Ignore the situation	D. Continue normal work without reporting it	B	5
20	LSC/N3925	Respond to Emergencies, Disasters and Pollution Control at GH2 Tank Farms	Why are emergency drills conducted at GH2 tank farms?	A. To waste time	B. To prepare employees for handling emergencies safely and effectively	C. To reduce safety awareness	D. To avoid following procedures	B	10
21	LSC/N3925	Respond to Emergencies, Disasters and Pollution Control at GH2 Tank Farms	What should be done if pollution or a hazardous leak is detected at a GH2 tank farm?	A. Ignore the leak	B. Report it immediately and follow pollution control procedures	C. Hide the incident from management	D. Wait until the leak becomes larger	B	15

22	DGT/VSQ/N 0102	Employability Skills (60 Hours)	Which of the following is a good workplace habit?	A. Being punctual	B. Arriving late every day	C. Ignoring instructions	D. Avoiding teamwork	A	10
23	DGT/VSQ/N 0102	Employability Skills (60 Hours)	Why is communication important in the workplace?	A. It helps people understand and work with each other effectively	B. It creates confusion	C. It reduces productivity	D. It avoids cooperation	A	10
