

S. No.	NOS Details	Question	Option A	Option B	Option C	Option D	Answer	Marks
1	LSC/N2201 Prepare for Packaging	Why is material inspection important before packaging preparation process?	Ensure Packaging Quality	Increase Defect Rate	Reduce Output Accuracy	Cause Production Delay	A	7
2		Which step is essential before starting tertiary packaging machine operation?	Office Layout Planning	Salary Processing Check	Machine Setup and Inspection	Visitor Management	C	7
3		What should operator ensure before starting tertiary packaging machine?	Proper Machine Calibration	Machine Shutdown Status	Emergency Stop Activated	Power Supply Off	A	8
4		Why is preparation important before packaging machine operation?	Increase Production Delay	Expand Documentation Work	Reduce Output Quality	Ensure Safe and Accurate Packaging	D	8
5	LSC/N0210. Perform tertiary Packaging	What is primary purpose of performing tertiary packaging operations in production line?	Increase Machine Downtime	Ensure Safe Product Transit	Expand Storage Loss	Reduce Packaging Quality	B	7
6		Which factor is most important during tertiary packaging machine operation?	Office Layout Design	Visitor Management System	Proper Sealing and Wrapping	Employee Attendance Record	C	7
7		What should be continuously monitored during tertiary packaging process?	Salary Processing Status	Office Furniture Condition	Machine Performance and Output Quality	Meeting Schedule List	C	8
8		Why is correct machine operation important in tertiary packaging process?	Maintain Product Safety	Reduce Production Efficiency	Expand Documentation Load	Increase Defect Rate	A	8
9	LSC/N0211. Execute Post Packaging Activities	What is primary purpose of post packaging activities?	Reduce packaging accuracy	Increase machine idle time	Expand storage loss	Ensure product dispatch	D	7
10		Which activity is essential in post packaging stage?	Employee attendance record	Quality inspection labelling	Visitor management	Office layout planning	C	7
11		What should be checked during post packaging stage?	Meeting schedule list	Seal integrity check	Salary processing status	Office furniture setup	C	8

12		Why are post packaging activities important in workflow?	Ensure correct dispatch	Expand documentation work	Reduce process efficiency	Increase defect rate	A	8
13	LSC/N0212. Conduct preventive maintenance of the Packaging Machine	What is primary purpose of preventive maintenance of packaging machines?	Reduce production output	Ensure machine reliability	Increase machine downtime	Expand storage space	B	7
14		Which activity is part of preventive maintenance process?	Visitor entry control	Regular machine inspection	Employee attendance check	Office layout planning	B	7
15		What should be checked during preventive maintenance?	Salary processing status	Meeting schedule list	Machine wear condition	Office furniture setup	C	8
16		Why is preventive maintenance important in packaging operations?	Reduce production speed	Increase defect rate	Expand documentation work	Avoid machine breakdown	D	8
17	LSC/N9911. Follow health, safety, security procedures and maintain integrity, ethics at workplace	What is primary purpose of following safety security procedures at workplace?	Ensure safe operations	Increase workload pressure	Expand office space	Reduce system usage	A	7
18		What is outcome of following safety ethics properly?	Safe working environment	Increased operational risk	Higher accident rate	Poor compliance level	A	7
19		What ensures security in workplace operations?	Open entry system	Free movement system	Unverified access system	Controlled access system	D	8
20		Why is integrity important in workplace operations?	Expand documentation load	Build trust system	Increase error rate	Reduce productivity level	B	8
21	DGT/VSQ/N0101. Employability Skills (30 Hours)	What is primary purpose of employability skills in workplace readiness?	Manage payroll records	Increase office space	Improve job performance	Reduce staffing needs	C	4
22		Which skill is essential for effective workplace communication?	Clear communication skill	Fuel management skill	Heavy driving skill	Cargo handling skill	A	4

23		Why is teamwork important in employability skills development?	Achieve common goals	Expand office costs	Increase documentation work	Reduce coordination needs	A	6
24		Which skill helps in solving workplace problems efficiently?	Driving operations skill	Loading cargo tasks	Fuel checking tasks	Problem solving ability	D	6
25	LSC/N0213. Operate Labelling Machine	What is primary purpose of operating labelling machine in packaging line?	Increase machine speed	Apply product labels	Expand storage space	Reduce product quality	B	7
26		Which parameter must be checked before operating labelling machine?	Label alignment setup	Office layout design	Employee attendance sheet	Visitor entry log	A	7
27		What should be ensured during labelling machine operation?	Salary processing status	Meeting schedule list	Correct label placement	Office furniture setup	C	8
28		Why is correct labelling important in packaging process?	Reduce production output	Increase packaging errors	Expand documentation work	Ensure product identification	D	8
29		LSC/N0214. Operate Case Packer/ Palletizer	What is primary purpose of operating case packer and palletizer in packaging line?	Expand storage area	Reduce product quality	Increase machine noise	Pack and stack products	D
30	Which parameter must be checked before operating case packer?		Office layout design	Visitor entry log	Employee attendance sheet	Machine setup alignment	D	7
31	What should be ensured during palletizer operation?		Salary processing status	Proper pallet stacking	Meeting schedule list	Office furniture setup	B	8
32	Why is correct case packing important in production process?		Ensure safe transportation	Increase packaging errors	Reduce product output	Expand documentation work	A	8
33	LSC/N0215. Operate Stretch Wrapping/ Strapping Machine	What is primary purpose of operating stretch wrapping and strapping machine?	Expand storage space	Secure unitized load	Increase machine speed	Reduce packaging quality	B	10

34	Which parameter must be checked before starting wrapping machine?	Visitor entry log	Office layout design	Employee attendance sheet	Film tension setting	D	10
35	What should be ensured during strapping machine operation?	Meeting schedule list	Office furniture setup	Proper load securing	Salary processing status	C	10
