

S. No.	NOS Details	Question	Option A	Option B	Option C	Option D	Answer	Marks
1	LSC/N0133.Unloading and Quality Control	Which step ensures correct unloading and prevents damage during warehouse operations safely?	Proper handling care	Random stacking goods	Fast unloading method	Manual record update	A	10
2		How does quality control verify incoming goods during warehouse unloading process accurately?	Quick visual scan	Direct storage placement	Manual inventory skip	Compare delivery notes	D	10
3		Why is inspection important during unloading for warehouse quality control checks process?	Speed up unloading work	Identify damaged goods	Reduce paperwork effort	Increase storage load	B	10
4	LSC/N0134.Traditional / Manual Put-away & Picking	What ensures accurate traditional put-away and picking in warehouse manual operations?	Follow location labeling	Skip bin verification	Random stock movement	Delay item entry	A	10
5		How does manual picking improve accuracy during traditional warehouse put-away process tasks?	Random item selection	Ignore storage system	Verify item location	Fast unchecked picking	C	10
6		Why is correct bin placement important in traditional manual warehouse put-away process?	Prevent storage errors	Increase handling speed	Reduce worker effort	Avoid system updates	A	10
7	LSC/N0135.GTP/AGV/Light/Voice assisted put-away & picking	How does AGV technology improve put-away and picking in modern warehouses efficiently?	Random item handling	Manual shelf search	Paper based tracking	Automated guided movement	D	10
8		What is main advantage of voice assisted picking during warehouse operations accuracy?	Visual barcode scan	Hands free guidance	Manual ledger entry	Static shelf storage	B	10
9		How does light assisted put-away system support workers in warehouse item placement?	Visual location indicators	Random bin selection	Manual memory recall	Delayed system updates	A	10
10	LSC/N0136.Order Verification and Loading (Dispatch) activities	How does order verification ensure correct items before loading dispatch operations safely?	Incorrect label check	Random carton loading	Manual item guessing	Match packing list	D	10
11		What is important step during loading process for warehouse dispatch accuracy control?	Loose carton stacking	Fast vehicle loading	Check shipment labels	Manual count errors	C	10
12		Why is proper sequencing required during loading for warehouse dispatch operations process?	Prevent delivery errors	Increase loading speed	Staff coordination loss	Unplanned truck loading	A	10

13	LSC/N0137.VAS (packaging, kitting, labeling, and binning)	How does VAS improve packaging, kitting, labeling, and binning in warehouse operations?	Unplanned item grouping	Random packing method	Manual stock error	Organized value services	D	10
14		What is key benefit of kitting process within VAS warehouse value activities system?	Grouped item assembly	Separate item storage	Manual random picking	Delayed shipment process	A	10
15		Why is accurate labeling important in VAS packaging and binning warehouse operations process?	Manual handwriting errors	Fast carton closing	Correct item identification	Loose packaging control	C	10
16	LSC/N9904.Maintain integrity and ethics in operation	How does maintaining integrity and ethics improve warehouse operational performance and trust?	Honest reporting practices	Fast shipment handling	Random stock updates	Unverified data entry	A	12
17		What shows ethical behavior during warehouse operations and daily handling of goods?	Speed over accuracy	Accurate record keeping	Personal benefit focus	Unchecked inventory changes	B	14
18		Why is integrity important while performing warehouse associate operational tasks and duties?	Builds workplace trust	Increases shortcut usage	Reduces supervision need	Encourages fast errors	A	14
19	LSC/N9905.Follow health, safety and security procedures.	Why is following health safety and security procedures important in warehouse operations?	Ignore safety checks	Increase manual workload	Reduce staff training	Prevent workplace accidents	D	12
20		How do safety procedures help warehouse associates maintain secure working environment daily?	Speed up dispatch	Ensure hazard control	Reduce documentation work	Improve stock errors	B	14
21		What is key benefit of security procedures during warehouse handling and operations tasks?	Protect goods safety	Increase operational risk	Allow unsafe shortcuts	Reduce worker focus	A	14
22	DGT/VSQ/N0101. Employability Skills (30 Hours)	How do employability skills improve performance of warehouse associate in daily operations?	Random job switching	Poor task coordination	Better workplace communication	Unplanned workflow errors	C	10
23		Which employability skill helps warehouse associates manage teamwork during operational activities effectively?	Team coordination ability	Individual task isolation	Disorganized work habits	Manual guessing tasks	A	10
24	LSC/N0103. Handle perishable	How should perishable goods be handled in warehouse to maintain product freshness properly?	Random shelf placement	Maintain cold storage	Loose carton stacking	Delayed stock entry	B	15

25	goods in warehouse	What is important step while handling perishable goods in warehouse storage operations?	Check expiry dates	Fast unloading process	Manual stock guessing	Uncontrolled temperature area	A	15
26	LSC/N0104.Handle FMCG goods	How should FMCG goods be handled safely in warehouse storage and operations processes?	Proper stacking method	Random carton placement	Uncontrolled handling process	Delayed inventory updates	A	10
27	in Warehouse	What is important step while handling FMCG goods in warehouse management activities?	Manual stock guessing	Fast unloading process	Check product expiry	Loose packaging handling	C	10
28		Why is proper handling required for FMCG goods in warehouse daily operations?	Maintain product quality	Increase storage errors	Reduce handling care	Allow damaged items	A	10
29	LSC/N0105.Handle automotive goods in warehouse	How should automotive goods be handled safely in warehouse storage and operations process?	Loose item placement	Random stacking parts	Unchecked storage handling	Proper lifting method	D	10
30	warehouse	What is important step while handling automotive goods in warehouse management activities?	Check part numbers	Fast unloading process	Manual stock guessing	Unsecured packing method	A	10
31		Why is careful handling required for automotive goods in warehouse daily operations?	Reduce handling care	Increase storage errors	Prevent component damage	Allow rough movement	C	10
32	LSC/N0106.Handle dry bulk cargo in warehouse	How should dry bulk cargo be handled safely in warehouse storage operations process?	Controlled transfer method	Random dumping process	Unsealed material handling	Loose floor storage	A	10
33	warehouse	What is important step while handling dry bulk cargo in warehouse operations?	Manual guessing weight	Fast unloading process	Check material quantity	Open area stacking	C	10
34		Why is proper handling required for dry bulk cargo in warehouse management system?	Prevent material loss	Increase storage errors	Reduce handling care	Allow spillage waste	A	10
35	LSC/N0138.Handle ecom operations in warehouse	How should e-commerce operations be handled efficiently in warehouse daily workflow process?	Untracked inventory movement	Random parcel handling	Manual shipment delay	Accurate order processing	D	10
36	warehouse	What is important step while handling e-commerce operations in warehouse fulfillment activities?	Fast packing process	Check order details	Manual stock guessing	Loose parcel stacking	B	10

37		Why is accuracy important in e-commerce operations within warehouse management system tasks?	Prevent delivery errors	Increase packing speed	Reduce customer tracking	Allow wrong dispatch	A	10
38	LSC/N9906. Verify GST invoices	How should GST invoices be verified accurately in warehouse billing and documentation process?	Unchecked document filing	Random bill entry	Manual guessing records	Match invoice details	D	10
39		What is important step while verifying GST invoices in warehouse accounting operations system?	Check tax details	Fast invoice approval	Manual record errors	Loose document handling	A	10
40		Why is invoice verification important for GST compliance in warehouse management activities?	Increase billing errors	Ensure tax accuracy	Reduce documentation care	Allow incorrect entries	B	10
